

Carte de localisation du secteur sud

The map displays a topographic representation of a mountainous region. The terrain is characterized by green shading indicating elevation, with contour lines showing the slope. Two main river systems are visible: the R. E. L. (Rivière de la L.) and the R. E. R. (Rivière de la R.). The R. E. L. flows from the north towards the south, while the R. E. R. flows from the east towards the west. The map also shows various settlements, including St. Pierre de la Rivière, and a network of roads. A scale bar at the bottom indicates distances from 0 to 3 Kilomètres. An inset map in the top right corner provides a broader geographical context, showing the location of the study area within the larger region of the province of Quebec.
